

## Profile

I have about 8 years of intensive activities for various IT companies worldwide, built CRM, E-commerce, LMS, SaaS products, Extensions, Electron Apps. My passion is to create highly functioning, reusable code that is simple, well structured, also I love solving problems and tackling new issues, always striving to find the most efficient solutions.

## Objective

I make amazing products for the client as an individual software engineer, and I am looking for a full-time remote job.

[React, Vue, JavaScript, Node Chrome, Firefox, Safari, Opera, and Edge]

I worked some Electron Apps as a full-stack electron app developer., React Js, Node.js, Bulma. I worked on the frontend side on these projects, sometimes I added some futures on the backend side.

# Jane Li

## Senior Full Stack Developer

### Work Experience

#### Ritual.com Development

Oct 2018 – Feb 2019

[React, Styled-Component, Redux, GraphQL, Gatsby, Contentful CMS, Ruby on Rails, Node]

This project is to creating the purest, most effective vitamin formulations, and sharing every ingredient, source & scientist that made our vitamin a reality. Developed this Application using React, Gatsby, Node, and Ruby on Rails from scratch.

<https://ritual.com/>

#### 1brand.co SaaS product Development

Apr 2018 – Feb 2019

[React, Typescript, Redux, GraphQL, Apollo, Apollo Client, Ant Design, Node, Headless CMS, Firebase Auth]

1Brand's goal is to make it easy for designers and brand managers to publish brand guidelines in under 10 minutes. Automated the process by pulling in colors, logos, and fonts from the brand's website provided by the user.

<http://1brand.co/>

#### Content.co Development

Aug 2018 – Oct 2018

[React, Redux, GraphQL, Gatsby, Node]

Content.co connects businesses to a curated network of top talents in content, marketing, and digital to fulfill immediate and long-term needs. Our algorithm screens tens of thousands of talents for their technical knowledge, domain expertise, and soft skills, to match the most qualified talents to you.

I worked on this project as a React & Gatsby Frontend Engineer, Focused on the Pixel Perfect UI with mobile Responsive, integrated Backend API and Headless CMS, and also developed some Gatsby Plugins for this project.

<http://content.co/>

#### Washingtontractor.com Development

Aug 2017 – Oct 2018

[Angular, Node.js, Express, WebSocket, AmCharts, Net]

Washington Tractor is a Washington State-based agricultural equipment dealer that currently operates out of 12 locations throughout the state. I developed WashingtonTractor App for 12 locations Store Management: Sales, Additional hauling capability, Several trucks Management, Clients, and Employers Management.

<https://www.washingtontractor.com/>

#### Colco E-Commerce System

Apr 2014 – Apr 2017

[JavaScript, Magento, Vue, React, Gatsby, Contentful CMS, Node, React Native]

As the first engineering hire, I worked on both frontend and backend of the application from day one.

I developed Complex Frontend, Admin Panel, Backend, Android & iOS App at Colco.
